Taffeta Used on All Lines of Dress—Blouse of White Taffeta With Black Moire Ribbon, Gold Embroidered in Oriental Design—Gorgeous Plaided Taffeta—Extreme Styles Seen—Tango Slipper in Gold Cloth With Gold Stud—Taffeta Lacing—Bananas En Casserole—Orange Pudding—English Cheesecake—Excellent Recipe for Nut Cake and Chocolate Filling.

PREVALENCE OF TAFFETA IN ALL LINES OF DRESS.

It is hard to name an article of present day dress in which taffeta has not been made to figure, some way, somehow. It is generally to be at least glimpsed, if no more, by a fold, or a frill, or a twisted knot elaborately embroidered, and it frequently is to be found in waistcoats, hats, gowns, and skirts as well as trimmings for suits and lacings for shoes.

Handsome waistcoats are being made of black taffeta instead of the satin so much in favor last season. Beadings and buttons are figuring more on the silk than embroidery, in combination with black velvet it is especially handsome, its glittering surface setting off well the dull of the velours de laine.

In blouse effects its attractiveness well merits its popularity. One charming soft taffeta blouse of cream white was stunningly trimmed with black moire ribbon, gold embroidered in Oriental design. Both at the front and the back the blouse fulness was plaited into a plain shoulder yoke. The sleeves, narrow at the top and at the waist, reached extreme fullness at the elbows. They were finished at the wrists by bands of the same black moire, gilt embroidered and held together by wide rhinestone slides.

In some of the latest hat models a veritable cascade of ostrich plumes are caught to a velvet crown by narrow folded bands of taffeta. Again, in small velvet hats an extremely smart effect is produced by a huge taffeta bow, often beaded with the main color note of the suit.

In the new Oriental yokes which had the tunic of a gown close to the hips for a period of some eight inches below the belt line, folds of taffeta frequently are drawn into use. Contrasting vividly in color with the main note of the dress, this same taffeta crushes easily into shape and lends itself to the wish of the wearer more readily than some of the stiffer, heavier materials. The tunic also are sometimes bound with narrow lines of taffeta silk beaded with pearls and rhinestones, or embroidered in gorgeous colored threads, according to the amount of money put into the gown.

For semi-formal wear taffeta prob-

ably reaches its greatest usefulness. One modish frock of rust red taffeta silk was joined by a wide giraffe of taffeta to a simple blouse of the same shade and material. The sleeves were a mass of plaited chiffon frills, with a close, tight cuff from the elbow down.

Gorgeous plaided taffetas are smart just now. One model had the skirt slashed on both sides and then caught together in taffeta bows. The fullness of the tunic was somewhat moderated by a close fitting satin yoke, which dropped some six inches from an unusually high belt line.

In slippers, too, the taffeta note has been struck. One variety of the tango slipper was displayed made up in gold cloth and bound about the instep and ankle with gold studded taffeta lacings.

RECIPES.

Bananas En Casserole.

Peel and scrape lightly five or six bananas, cutting them in halves lengthwise and again crosswise. Put these into a casserole or pudding dish and pour over them a glass of currant jelly, which has been melted in one cup of hot water. Squeeze over this the juice of half a lemon and bake in a moderate oven thirty minutes. This makes a delicious sweet entrée served with a roast or maybe served with cream as a dessert.

Orange Pudding.

Squeeze the juice from enough oranges to make a cupful, adding one cup water and the juice of a lemon. Sweeten to taste and put over the fire. Rub three teaspoons cornstarch in a little cold water and add to the juice. Cook ten minutes stirring in the stiff beaten whites of two eggs. Remove and pour into a mold some of the pudding and then some cut pieces of orange, alternating until the mold is full. Allow this to become very cold, and serve with whipped cream or sauce.

English Cheesecake.

Turn two quarts fresh milk by putting into it a piece of rennet the size of a 50-cent piece and one and one-half tablespoons essence of rennet. Let the milk be warm, but not too hot, and let it stand on warm stove. When it is turned, pour it into a

THE PEG TOP EFFECT.

Made of charmeuse in the new mahogany shade with buttons and a circle of the same this dress is made brilliant by sleeves and a surplice effect of orange chiffon over cream white net.

A curved frill of lace edging is an artistic touch and the sleeves are finished with cuffs of the charmeuse.

coarse towel and allow the whey to drip from it, gently pressing it until it is dry. Then add three ounces currants, previously washed and thoroughly dry; two ounces candied lemon peel in small, chunky bits; yolks of three eggs and white of one well beaten; two ounces butter, slightly creamed and stirred in; two teaspoons sugar, half a nutmeg, finely grated, and a dash of salt. Line patry tin with good short paste and fill in with the mixture. Then put a narrow curled strip or two of paste across and bake in a rather quick oven, but not too hot.

Nut Cake.

One-half cup butter, one and one-half cups sugar, three eggs, two and one-half cups flour, one and one-half teaspoons baking powder, one-half cup milk, one cup chopped nuts. Rub the sugar and butter to a light cream; add the eggs, beaten a little, then the milk with the powder and flour sifted together, and the nuts. Bake in a paper lined tin in a steady oven thirty-five minutes.

Chocolate Filling.

One cup brown sugar, one cup thick sour cream, one square chocolate boiled until it becomes thick when cool. Flavor with vanilla.

How Thin People Can Put On Flesh

A New Discovery

Thin men and women—that big, hearty, filling dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained in weight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This nutritive organs, your functions of assimilation, are sadly out of gear and need reconstruction.

Cut out the foolish foods and funny sawdust diets. Omit the flesh cream rub-ons. Cut out everything but the meals you are eating now and eat with every one of those a single Sargol tablet. In two weeks note the difference. Five to eight good solid pounds of healthy, "stay there" fat should be the net result. Sargol charges your weak, stagnant blood with millions of fresh new red blood corpuscles—gives the blood the carrying power to deliver every ounce of fat-making material in your food to every part of your body. Sargol, too, mixes with your food and prepares it for the blood in easily assimilated form. Thin people gain all the way from 10 to 25 pounds a month while taking Sargol, and the new flesh stays put. Sargol tablets are a scientific combination of the best flesh-producing elements known to chemistry. They come 40 tablets to a package, are pleasant, harmless and in expensive, and A. R. McIntyre Drug Store and all other druggists in Ogden and vicinity sell them subject to an absolute guarantee of weight increase or money back.—(Advertisement)

WANT STANDARD OIL COMPANIES OUSTED

Meredian, Miss., Nov. 25.—Arguments on a demurrer to an ouster suit recently filed by the state, which were heard here today, were to the effect that the Standard Oil companies of New Jersey, Kentucky and Louisiana are separate concerns and have no connections in their business relations.

The state had charged that 90 per cent of the cotton oil business in Kentucky was controlled by a set of men, and naming the three companies, it asked that they be ousted and demanded penalties for alleged violation of the anti-trust law.

Marconi is urging that the rule of the road be made uniform in all countries by international agreement.

PARCEL POST A BIG COMPETITOR

Express Companies Sustain Heavy Losses—Profits Wiped Out By New System.

Washington, Nov. 25.—Under the competition following the inauguration of the parcel post system, the express companies of the country have sustained heavy losses in their earnings, according to Representative Davis J. Lewis, author of the parcel post law. In making public today figures he had collected on the earnings of the corporations, Mr. Lewis prophesied that within the near future, the postoffice department virtually would have a monopoly of the transportation of small parcels and that eventually the government might take over the express corporations in their entirety.

Mr. Lewis figures purported to show that the profits of the five leading express companies, which control 87 per cent of the express business had fallen steadily since 1911. During the twelve months of 1911, 1912 these were represented to be, in round figures \$5,772,000 and in 1912-1913 this was said to have decreased to \$3,290,000. Last June, when the parcel post system had entered fully into competition, express profits were wiped out and in the one month a loss of \$420,000 according to Mr. Lewis was sustained by the five corporations in conducting their transportation business.

The Maryland representative announced today that he would lead a fight in the coming congress for government ownership of the telephone and telegraph lines of the country.

Healthy, Wrinkle-Free Skin Easy to Have

(From The Woman Beautiful.) A dull, drab, muddy complexion, or an over-red, blotchy, pimply or freckled skin, can by a quite simple, harmless and inexpensive method, be changed to one of flower-like radiance and purity. One ounce of common mercuric iodine, sold by druggists generally, will remove the most unsightly complexion in from one to two weeks. By its remarkable absorptive power the withered, faded or discolored layer of thin film-skin which hides the healthier skin underneath, is gradually flaked off in tiny, almost invisible particles. This is done so gently there is no inconvenience, and no trace is left on the skin except that of enhanced beauty. The wax is smeared on like cold cream before retiring, and removed in the morning with warm water.

If the skin be wrinkled or saggy, a face bath made by dissolving 1 oz. powdered salolite in 1/2 pt. witch hazel will be found most effective. Combining both astringent and tonic properties, this tightens the skin and braces up its supporting muscles.—(Advertisement)

GRANITE TO MEET OGDEN THURSDAY

Salt Lake, Nov. 25.—Granite high school will have ended one of the most successful football seasons in its history with the conclusion of the game with Ogden on Thanksgiving day. Since 1908 the team has not won a high school championship. In 1908 Ashton and Legrone were the stars for Granite, who did much to bring a championship to the team.

The record of the team thus far this year includes victories over Ogden and Jordan and defeats by Salt Lake high and the Utah freshmen. This year, in accordance with the system inaugurated last year, pen-nants will be given to each member of the squad who has played two or more halves of a game. Previous to last year awards were given to the players. The members of the squad who have made their letters this year are: Asherman, G. Hamilton, J. Hamilton, Halton, E. Smith, B. Smith, Riches, Johnson, Hinz, Carlson, McDonald, Jones, Blazard, Murphy, Ca-hoon, Peterson, Mackey, Erickson, Jensen, Spencer, Fraser and Dundas. Graduation in June will cause the loss to the team next year of Jones, McDonald, Manager Spencer, Captain G. Hamilton, Halton, Mackey and J. Hamilton.

A play that will always bring back the name of Captain Hamilton to the students of Granite is the remarkable run of ninety-five yards for a touchdown which he made in the game against Jordan this year. Others whose names will be recorded in the Granite high school football hall of fame are: Cahoon, quarterback, who was one of the fastest men ever developed by the Farmers; Ausherman, whose punting has been an outstanding feature during the season; McDonald and Carlson, who were two of the best and surest tacklers of any high school team in the state; and Riches, who showed much class in going through for touchdowns.

FOOD CONSUMED IN LIFETIME

If you live to be 75 years old the vast amount of food you will have consumed will surprise you. Some men who apparently had a few idyllic moments have figured out exactly how much will be used. Of course he has assumed that you are of an average weight, height and appetite. A growing boy might, of course, eat several times these amounts. At the age of 75 you will have eaten fifty-four tons of solid food and fifty-three tons of liquid—about 1300 times your own weight! You will have made way with a ton and a quarter of butter and the tons of bread you will have used as a vehicle for the butter would make a

bulk equal to that of a big barn. If you are fond of bacon and the slices of that article of food which you will have consumed were placed end to end they would extend for a distance of four miles. Five tons of fish will have been used to satisfy your appetite for marine food and the hens living in those seventy-five years will have been obliged to lay 12,000 eggs for your benefit.

If you have a taste for limburger and other varieties of cheese, 400 pounds will have been required to supply this part of your diet. Vegetables to fill a train three miles long will have been eaten. For seasoning these articles 10,000 pounds of sugar and 1500 pounds of salt will have been used. If you are addicted to the use of tobacco, half a ton of tobacco for your pipe or cigars and 500,000 cigarettes will have been your due, provided you use the weed as does the average victim.

HAVE DARK HAIR AND LOOK YOUNG

Nobody can Tell when you Darken Gray, Faded Hair with Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug-store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair. A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a sponge or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.—Agents, A. R. McIntyre.

IF BACK HURTS BEGIN ON SALTS

Flush your Kidneys occasionally if you eat meat regularly.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain out part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys. The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.—Advertisement

CURVED GLASS IN SHOW WINDOWS

A show window which renders objects on display as clearly visible as though there were no glass at all has recently been installed in one of the big New York department stores. The new "shadow-box" window eliminates all reflection and thus avoids the common and annoying fault in the ordinary display window which reflects sky, buildings, street traffic, etc., more brilliantly than it displays the merchandise the store offers for sale. The new type of window, which is patented, is divided into an upper and a lower light, the latter extending to a height well above the head of a very tall person.

ELBERT HUBBARD SAYS

"It is easy to make claims, but harder to make good."

The finest wheat raised in Utah and Idaho, properly blended and properly milled, makes Utah's most popular flour—

CRESCENT FLOUR

The AMERICAN ADDING MACHINE

The Latest Adder

Costs But \$35

See our exhibit—ask for 10 days' trial

Here is a new price on a competent adder. On a machine that is rapid, full-size and infallible.

The very latest machine, built by men who know, in one of the largest metal-working shops.

It is an individual adder, to be placed on one's desk, close to one's books and papers. To take the place of the central machine requiring skilled operators.

It is also intended for offices and stores where costly machines are a luxury.

The price is due to utter simplicity, and to our enormous output. Seven keys do all the work.

Each copied number is shown up for checking before the addition is made.

The machine will add, subtract and multiply. With very slight practice anyone can compute a hundred figures a minute. And the machine never makes mistakes.

Countless offices, large and small, are getting from these machines the highest class of service.

Manufactured and Guaranteed By AMERICAN CAN COMPANY, CHICAGO

Sold in Ogden by PROUDFIT SPORTING GOODS CO. 351 24th St.

Now we make this offer so that offices everywhere may learn what this machine means to them.

We will gladly place in any office one American Adder for a ten days' test.

There will be no obligation, and charges will be prepaid.

Compare it with any non-lister—even the costliest. Let anyone use it. See if any machine can serve better than this.

Just send us this coupon and we'll send the machine.

Please send us an American Adding Machine for ten days' free trial.
